## 1. LEA Conditions:

- a. The operator shall comply with State Minimum Standards for solid waste handling and disposal as specified in Title 14 and Title 27, California Code of Regulation (CCR). The operator shall not operate this facility without possession of all required permits/regulatory approvals. The operator shall inspect the site at a frequency sufficient to ensure compliance with all applicable standards/condition/mitigation/regulation as are applicable to this facility.
- b. The operator shall comply with all applicable requirements and enactments including all mitigation and monitoring measures listed in any adopted document filed pursuant to Public Resources Code, Section 21081.6 and all administrative/enforcement orders of all regulatory agencies with jurisdiction at this facility.
- c. Copies of all LEA/CIWMB regulatory inspection reports and enforcement actions shall be maintained at the main Integrated Waste Management office. Such reports must be readily available to facility personnel, LEA staff and other appropriate regulatory personnel.
- d. Additional information concerning the design/operation of the facility shall be furnished upon request to the LEA and other regulatory personnel.
- e. The operator shall notify the LEA in writing of any proposed change in the routine facility operation or changes in facility design during the planning stages. In no case shall the operator undertake any significant changes unless the operator first submits to the LEA a notice of said changes at least 150 days before said changes are undertaken. Any significant changes as determined by the LEA would require a revision to this permit.
- f. The LEA reserves the right to suspend and/or modify the solid waste handling and operations at this facility when deemed necessary due to any emergency, potential health hazard, and/or public nuisance.
- g. The terms and conditions of this permit may change as a result of applicable statutes or regulation revisions.
- h. This permit does not release the operator from its responsibility under any other existing laws, ordinances, regulations, or statutes of other government agencies.
- i. The gas monitoring program shall be incorporated and maintained in the most current and approved RDSI.
- j. The operator shall provide adequate on-site and off-site litter control as needed to maintain the site.
- k. Dead animals shall be completely covered as soon as possible and at a minimum, at the end of the working day that animals are received with 6 inches of soil. Compaction follows after decomposition.
